

CITY OF LINDSAY  
BENCH MARK LIST  
PREFACE

The City of Lindsay Bench Mark System was established in 1975 by R. L. Schafer & Associates, Inc.

Elevations are based on a 1959 adjustment of the National Geodetic Survey (formerly Coast and Geodetic Survey) Sea Level Datum of 1929.

The control Bench Mark is located near the Lindsay City Hall building at the Westerly corner of Gale Hill Avenue and Honolulu Street. It is a U.S. Coast and Geodetic Survey bronze disk stamped "LINDSAY 1934" set in concrete.

Bench marks established are 1½-inch brass caps stamped CITY OF LINDSAY BENCH MARK with a number designation.
